About Trading:

Chika Company proudly operates in the production and supply of premium Akbari and Ahmad Aghaei pistachios from the lush orchards of Sirjan and Rafsanjan in Kerman province. As one of the pioneers in this industry, we place a special emphasis on the quality of our products and utilize the latest agricultural and processing techniques to bring the best taste and nutritional value to our customers.

Akbari Pistachios

Akbari pistachios, with their large appearance and delicious kernel, are among the most popular types of pistachios in global markets. Due to their high oil content and unique flavor, these pistachios are an ideal choice for consumption raw as well as in various sweets and snacks.

Ahmad Aghaei Pistachios

Ahmad Aghaei pistachios, with their mild flavor and crunchy texture, are another one of our standout products. Their attractive appearance and excellent quality make them a favorite among many buyers and they are widely used in producing various nuts and sweets.

Khanjari Pistachios

Khanjari pistachios, with their unique appearance and distinctive shape, are one of the popular varieties. Known for their sweet taste and delicious kernel, they are recognized as an excellent snack. Khanjari pistachios are easily used in various nut mixes and desserts, making them a healthy and nutritious snack option.

Kaleh ghochi Pistachio

Kaleh ghochi pistachios, with their large size and sweet, fatty kernel, are considered one of the best and highest quality varieties. Their unparalleled flavor makes them a popular snack at parties and events. Kaleh ghochi pistachios are also widely used in the preparation of various sweets and desserts and can serve as a beautiful decoration for cakes and ice creams.

CHIKA

Round Pistachios (Ouhadi)

Round pistachios, or Ouhadi, with their round shape and medium size, have a unique and enjoyable taste. Due to their high oil content and numerous nutritional benefits, these pistachios are recognized as a healthy and nutritious snack. They are also used in the preparation of various desserts, sweets, and mixed nuts, enhancing their flavor and nutritional value.

Introduction to Chika Company's Pistachio Products

Chika Company proudly produces and supplies salted and roasted pistachios from the orchards of Sirjan and Rafsanjan. These two types of pistachios, with their unique features, are not only known as nutritious snacks but also have many applications in the preparation of various sweets and nuts.

Salted Pistachios

Salted pistachios, with their delicious and crunchy taste, are one of the most popular choices for snacking. Due to their tasty and salty flavor, they are an ideal option for parties and gatherings. Salted pistachios are typically consumed as a healthy and nutritious snack and can also be used in the preparation of some dishes and salads.

Roasted Pistachios

Roasted pistachios, with their attractive appearance and tasty kernel, are another of our standout products. Their natural split allows for easy use in various desserts and sweets. Roasted pistachios serve as a beautiful and delicious decoration for cakes, ice creams, and other sweets, adding remarkable flavor and appearance.

Uses of Pistachios in Food Industries

Pistachios not only serve as independent snacks but also play a significant role in various food industries, including:

Confectionery: Used as a main ingredient and flavor enhancer in various Iranian sweets such as baklava and qatab.

Nuts and Snacks: Salted and roasted pistachios are key components in mixed nut combinations, making them popular choices for consumption at parties and events.

Desserts and Cakes: Pistachios can be used as beautiful and delicious decorations in cakes and desserts, imparting a unique flavor.

Nutritional Features

Pistachios are a rich source of nutrients, including protein, fiber, and vitamins. Regular consumption of these nuts not only helps improve heart health but also provides the energy required by the body.

Chika Company is proud to offer these high-quality products to you and places special importance on your health and satisfaction. For more information and to purchase our products, please contact us.

Chika Company strives to ensure customer satisfaction and health by providing the best quality salted and roasted pistachios. For more information and to purchase our products, contact us and enjoy the taste and quality of our pistachios.

Product Packaging Types at Chika Company

Chika Company employs various high-quality and diverse packaging options to deliver its products to customers. These packaging types not only preserve the freshness and quality of the products but also pay special attention to aesthetics and attractiveness. Below, we introduce the different packaging types for pistachios:

Vacuum Packaging: Vacuum packaging is considered one of the best methods for maintaining the freshness and quality of pistachios due to the removal of air and prevention of oxidation. This type of packaging is suitable for salted and roasted pistachios and extends their shelf life.

Ziplock Packaging: Ziplock packaging is very suitable for customers looking for convenience and reusability. This type of packaging helps maintain the freshness and aroma of the pistachios and can be easily opened and closed.

Glass Packaging: Glass packaging is used to present products in a luxurious and attractive manner. This type of packaging is typically used for special and export-grade pistachios and can also serve as a beautiful gift.
